- Medical and surgical treatment of *Acanthamoeba* keratitis (correspondence), 310
- Microbial contamination of contact lens care systems, 325
- Rapid resolution of early *Acanthamoeba* keratitis after epithelial debridement (letter), 87

Acetazolamide

- Can the risk of acetazolamide-induced aplastic anemia be decreased by periodic monitoring of blood cell counts? (editorial), 654

Acquired immune deficiency syndrome

- Prevalence, pathophysiology, and treatment of rhegmatogenous retinal detachment in treated cytomegalovirus retinitis (correspondence), 312
- Spontaneous fungal corneal ulcer as an ocular manifestation of AIDS (letter), 302

AIDS-related complex

- Peripheral corneal ulceration in a patient with AIDS-related complex (letter), 542

Alzheimer's disease

- Alzheimer syndromes (editorial), 183
- Assessment of visual impairment in patients with Alzheimer's disease, 113

Amblyopia

- The contrast sensitivity function and childhood amblyopia, 64
- The contrast sensitivity function and childhood amblyopia (correspondence), 671

Anemia

- Can the risk of acetazolamide-induced aplastic anemia be decreased by periodic monitoring of blood cell counts? (editorial), 654

Aneurysm

- Branch retinal artery occlusion after dye yellow photocoagulation of an arterial macroaneurysm (letter), 186

Angiotensin converting enzyme

- The predictive value of serum angiotensin converting enzyme and lysozyme levels in the diagnosis of ocular sarcoidosis, 211

Angle-closure glaucoma

- Hypopyon keratouveitis in acute angle-closure glaucoma (letter), 430

Anisocoria

- Intracranial oculomotor nerve paresis with anisocoria and pupillary parasympathetic hypersensitivity, 401
- The prevalence of simple anisocoria, 69

Anophthalmos

- Pyogenic granuloma on a dermis fat graft in acquired anophthalmic orbits, 641

Anterior hyaloidal fibrovascular proliferation

- Anterior hyaloidal fibrovascular proliferation after diabetic vitrectomy, 607
- Clinicopathologic findings in anterior hyaloidal fibrovascular proliferation after diabetic vitrectomy, 615

Antibiotic drugs

- Exogenous bacterial endophthalmitis treated without systemic antibiotics, 121

Aphakia

- Secondary intraocular lens implantation vs epikeratophakia for the treatment of aphakia (correspondence), 194

Aqueous humor

- Aqueous humor, cerebrospinal fluid, and atriopeptin (editorial), 297
- Penetration of imipenem into human aqueous and vitreous humor, 649

Aspirin

- Persistent hemorrhage after extracapsular surgery associated with excessive aspirin ingestion (letter), 426

Astigmatism

- Scleral flap surgery for modification of corneal astigmatism, 259

B

***Bacillus* sp.**

- Microbial contamination of contact lens care systems, 325

Betaxolol

- Sinus arrest associated with betaxolol ophthalmic drops (letter), 431

Blindness

- A decade of progress in the prevention of blindness (editorial), 80
- Recovery from total monocular blindness after balloon embolization of carotid-cavernous fistula (letter), 86

Extracapsular cataract extraction and posterior chamber intraocular lens implantation combined with trabeculectomy in patients with glaucoma, 465
Management of increased intraocular pressure after cataract extraction (correspondence), 195
Persistent hemorrhage after extracapsular surgery associated with excessive aspirin ingestion (letter), 426
- Central retinal artery**
Visual recovery in combined central retinal artery and central retinal vein occlusion, 358

Central retinal vein

Visual recovery in combined central retinal artery and central retinal vein occlusion, 358

Chiasm

Chiasmal neuropathy secondary to rheumatoid pachymeningitis (letter), 439

Children

Compensatory mechanisms in congenital nystagmus, 387

The contrast sensitivity function and childhood amblyopia, 64

The contrast sensitivity function and childhood amblyopia (correspondence), 671

Foveal cone pigments and sensitivity in young patients with Usher's syndrome, 103:150; correction, 98

Malignant melanoma of the choroid associated with melanosis oculi in a child (letter), 662

Neisseria meningitidis conjunctivitis in children, 280

Choroid

Malignant melanoma of the choroid associated with melanosis oculi in a child (letter), 662

Retinal detachment after choroidal ischemia, 364

The treatment of advanced choroidal melanoma with massive orbital extension, 634

Choroideremia

The relation of rhodopsin and scotopic sensitivity in choroideremia, 524

Ciliary body

Detection of specific extracellular matrix molecules in drusen, Bruch's membrane, and ciliary body, 373

Coats' disease

Apparent Coats' disease and pericentric inversion of chromosome 3 (letter), 84

Cocaine

Ocular signs of cocaine intoxication in neonates (correspondence), 550

Coccidioidomycosis

Miliary retinitis in coccidioidomycosis, 24

Collagen

Extracellular matrix of the human lamina cribrosa, 567

Congenital disorders

Amniotic bands as a cause of ocular anomalies, 270

Apparent Coats' disease and pericentric inversion of chromosome 3 (letter), 84

Compensatory mechanisms in congenital nystagmus, 387

Ocular pigmented spots and eyelid myxomas, 533

Conjunctiva

Bilateral avascular zones of the conjunctiva in a patient with juvenile dermatomyositis (letter), 440

Conjunctival forceps for glaucoma filtering surgery (letter), 666

Incidence of granulomatous lesions in postmortem conjunctival biopsy specimens, 605

Limbal- vs fornix-based conjunctival trabeculectomy flaps, 28

Conjunctivitis

Giant papillary conjunctivitis associated with cyanoacrylate glue (letter), 437

Human conjunctivitis caused by the bird parasite *Philophthalmus*, 417

Neisseria meningitidis conjunctivitis in children, 280

Contact lens

Lesions resembling Trantas dots in a patient wearing soft contact lenses (letter), 305

Microbial contamination of contact lens care systems, 325

Treatment of contact lens-associated corneal erosions (letter), 306

Contrast sensitivity

The contrast sensitivity function and childhood amblyopia, 64

The contrast sensitivity function and childhood amblyopia (correspondence), 671

Cornea

Acute and chronic keratitis with ulceration after corneal exposure to helium ion irradiation (letter), 189

Candida albicans endophthalmitis after penetrating keratoplasty, 57

Clinical features of a newly recognized type of lattice corneal dystrophy, 241

Clinical patterns of corneal epithelial wound healing, 481

Comparison of chondroitin sulfate to McCarey-Kaufman medium for corneal storage, 490

Corneal perforation at birth secondary to Peters' anomaly (letter), 303

Corneal sensitivity in nephropathic cystinosis, 413

Corneal transplantation in microphthalmic eyes, 164

Corneal ulcer caused by *Shigella flexneri* in an infant (letter), 90

Hepatitis B surface antigen in corneal donors, 255

Hibiclens keratitis, 50

Histopathologic and immunochemical features of lattice corneal dystrophy type III, 249

Iris melanoma with extensive corneal invasion and metastases (letter), 543

Noncontact trephination of the cornea using a pulsed hydrogen fluoride laser, 471

Peripheral corneal ulceration in a patient with AIDS-related complex (letter), 542

Scleral flap surgery for modification of corneal astigmatism, 259

Serologic markers after the transplantation of corneas from donors infected with human immunodeficiency virus (correspondence), 445

Spatial and temporal sequence of corneal crystal deposition in nephropathic cystinosis, 598

Spontaneous fungal corneal ulcer as an ocular manifestation of AIDS (letter), 302

Topical fibronectin in the treatment of persistent corneal epithelial defects and trophic ulcers, 494

Treatment of contact lens-associated corneal erosions (letter), 306

Unesterified cholesterol in Schnyder's corneal crystalline dystrophy, 157

Corrections

Effect of scleral buckling on vector forces caused by epiretinal membranes, 102: 449; correction, 667

Evulsion of the retina associated with optic nerve evulsion, 5; correction, 209

Foveal cone pigments and sensitivity in young patients with Usher's syndrome, 103:150; correction, 98

Patterns of early visual field loss in open-angle glaucoma, 103:512; correction, 98

Corticosteroid

Comparison of the prophylactic effects of 2-deoxycytidine and prednisolone for high-dose intravenous cytarabine-induced keratitis, 476

Cup-disk ratio

Reproducibility of topographic measurements with the optic nerve head analyzer, 581

Cyanoacrylate

Giant papillary conjunctivitis associated with cyanoacrylate glue (letter), 437

Cystinosis

Corneal sensitivity in nephropathic cystinosis, 413

Recurrent crystal deposition after keratoplasty in nephropathic cystinosis (letter), 190

Spatial and temporal sequence of corneal crystal deposition in nephropathic cystinosis, 598

Cystoid macular edema

Hyperbaric oxygen treatment for chronic cystoid macular edema after branch retinal vein occlusion (letter), 301

Cytomegalovirus retinitis

Prevalence, pathophysiology, and treatment of rhegmatogenous retinal detachment in treated cytomegalovirus retinitis (correspondence), 312

D

Daunorubicin

Intraocular daunorubicin for the treatment and prophylaxis of traumatic proliferative vitreoretinopathy, 10

Descemet's membrane

Sulfur hexafluoride gas in the repair of intractable Descemet's membrane detachment (letter), 660

Diabetes

Anterior hyaloidal fibrovascular proliferation after diabetic vitrectomy, 607

Cataract extraction in the diabetic eye after vitrectomy, 1

Clinicopathologic findings in anterior hyaloidal fibrovascular proliferation after diabetic vitrectomy, 615

Retinal neovascularization after branch retinal arterial obstruction, 294

Diabetic retinopathy

Anterior hyaloidal fibrovascular proliferation after diabetic vitrectomy, 607

Proteinuria and blood glucose levels in a population with diabetic retinopathy, 283

Drusen

Detection of specific extracellular matrix molecules in drusen, Bruch's membrane, and ciliary body, 373

E

Edema

Acute posterior multifocal placoid pigment epitheliopathy with unilateral retinal lesions and bilateral disk edema (letter), 548

Editorials

Alzheimer syndromes (COGAN, D. G.), 183

Aqueous humor, cerebrospinal fluid, and atriopeptin (NOVACK, G. D., and LEOPOLD, I. H.), 297

Can the risk of acetazolamide-induced aplastic anemia be decreased by periodic monitoring of blood cell counts? (ZIMRAN, A., and BEUTLER, E.), 654

A decade of progress in the prevention of blindness (KUPFER, C.), 80

Expanding ophthalmologic recognition of Epstein-Barr virus infections (AABERG, T. M., and O'BRIEN, W. J.), 420

Reader preferences (NEWELL, F. W.), 539

Encephalopathy

Unusual ocular findings in multicystic encephalomalacia (letter), 436

Endophthalmitis

Candida albicans endophthalmitis after penetrating keratoplasty, 57

Cryptococcal endophthalmitis and meningitis associated with acute psychosis and exudative retinal detachment (letter), 438

Endophthalmitis associated with sequestered intraocular *Propionibacterium acnes* (letter), 428

Exogenous bacterial endophthalmitis treated without systemic antibiotics, 121

Neisseria mucosa endophthalmitis (letter), 663

Endotheliopathy

Pars planitis and autoimmune endotheliopathy (correspondence), 311

Enzyme

The predictive value of serum angiotensin converting enzyme and lysozyme levels in the diagnosis of ocular sarcoidosis, 211

Transient visual loss in ornithine transcarbamoylase deficiency, 407

Epidemiology

A decade of progress in the prevention of blindness (editorial), 80

Epikeratophakia

The nationwide study of epikeratophakia for myopia (correspondence), 315

Secondary intraocular lens implantation vs epikeratophakia for the treatment of aphakia (correspondence), 194

Epi-retinal membrane

Effect of scleral buckling on vector forces caused by epi-retinal membranes, 102: 449; correction, 667

Episcleritis

Syphilitic episcleritis and scleritis, 595

Epithelium

Clinical patterns of corneal epithelial wound healing, 481

Rapid resolution of early *Acanthamoeba* keratitis after epithelial debridement (letter), 87

Topical fibronectin in the treatment of persistent corneal epithelial defects and trophic ulcers, 494

Epstein-Barr virus

Expanding ophthalmologic recognition of Epstein-Barr virus infections (editorial), 420

Punctate outer retinitis in acute Epstein-Barr virus infection (letter), 424

Exenteration

The treatment of advanced choroidal melanoma with massive orbital extension, 634

Eyedrops

Bilateral effects of long-term monocular timolol therapy, 591

A double-masked study of timolol and pilocarpine combined, 587

Sinus arrest associated with betaxolol ophthalmic drops (letter), 431

Eyelid

Metastasis of primary osteogenic sarcoma to the eyelid (letter), 659

Ocular pigmented spots and eyelid myxomas, 533

F**Familial dysautonomia**

Optic nerve dysfunction in familial dysautonomia, 645

Fibrin

Treatment of experimental intravitreal fibrin with tissue plasminogen activator, 619

Fibronectin

Topical fibronectin in the treatment of persistent corneal epithelial defects and trophic ulcers, 494

Fibrosis

Histopathologic and immunohistopathologic features of subretinal fibrosis and uveitis syndrome, 15

Filtering surgery

Conjunctival forceps for glaucoma filtering surgery (letter), 666

A randomized study of 5-fluorouracil and filtration surgery, 218

Suprachoroidal hemorrhage after glaucoma filtering surgery (correspondence), 444

Fluorescein

Fluorescein in laser sclerostomy (letter), 432

Fluorescein angiography

Digital fluorescein tele-angiography (letter), 91

Expedited film processing in emergency fluorescein angiography (letter), 93

Fluorouracil

A randomized study of 5-fluorouracil and filtration surgery, 218

Fovea

Foveal cone pigments and sensitivity in young patients with Usher's syndrome, 103:150; correction, 98

G**Genetics**

Corneal sensitivity in nephropathic cystinosis, 413

Optic nerve dysfunction in familial dysautonomia, 645

Protein C deficiency associated with vitreous hemorrhage in a neonate (letter), 546

Recurrent crystal deposition after keratoplasty in nephropathic cystinosis (letter), 190

Glaucoma

Conjunctival forceps for glaucoma filtering surgery (letter), 666

Diffuse visual field loss in chronic open-angle and low-tension glaucoma, 577

The effect of twice daily nadolol on intraocular pressure, 343

Extracapsular cataract extraction and posterior chamber intraocular lens implantation combined with trabeculectomy in patients with glaucoma, 465

Extracellular matrix of the human lamina cribrosa, 567

Glaucoma treatment with once-daily levobunolol (correspondence), 443

Limbal- vs fornix-based conjunctival trabeculectomy flaps, 28

Localization of extracellular proteins of the human trabecular meshwork by indirect immunofluorescence, 33

Positional changes in the vasculature of the optic disk in glaucoma, 457

A randomized study of 5-fluorouracil and filtration surgery, 218

Suprachoroidal hemorrhage after glaucoma filtering surgery (correspondence), 444

Granuloma

Incidence of granulomatous lesions in postmortem conjunctival biopsy specimens, 605

Pyogenic granuloma on a dermis fat graft in acquired anophthalmic orbits, 641

H**Haemophilus sp.**

Haemophilus aphrophilus as a cause of crystalline keratopathy (letter), 89

Hemorrhage

Suprachoroidal hemorrhage after glaucoma filtering surgery (correspondence), 444

Hepatitis B antigen

Hepatitis B surface antigen in corneal donors, 255

Hibiclens

Hibiclens keratitis, 50

Hibiclens keratitis (correspondence), 670

Hibiclens keratitis (correspondence), 670

Human immunodeficiency virus

Serologic markers after the transplantation of corneas from donors infected with human immunodeficiency virus (correspondence), 445

Hydroxychloroquine

Hydroxychloroquine therapy in massive total doses without retinal toxicity, 139

Hyperoxemia

Neuronal necrosis and hyperoxemia in premature infants (correspondence), 96

Hypopyon

Hypopyon keratouveitis in acute angle-closure glaucoma (letter), 430

I**Imipenem**

Penetration of imipenem into human aqueous and vitreous humor, 649

Infants

Amniotic bands as a cause of ocular anomalies, 270
Corneal ulcer caused by *Shigella flexneri* in an infant (letter), 90

Neuronal necrosis and hyperoxemia in premature infants (correspondence), 96

Ocular signs of cocaine intoxication in neonates (correspondence), 550

Protein C deficiency associated with vitreous hemorrhage in a neonate (letter), 546

Ultrastructural characteristics of proliferative tissue in retinopathy of prematurity, 149

Injuries

Clinical patterns of corneal epithelial wound healing, 481

A model for predicting the site of paraxial retinal lesions secondary to "coaxial" operating microscope illumination systems, 516

Intraocular foreign body

Intraocular foreign body from a Healon syringe (letter), 427

Intraocular lens

Assessment of success and complications of triple procedure surgery, 233

Extracapsular cataract extraction and posterior chamber intraocular lens implantation combined with trabeculectomy in patients with glaucoma, 465

Magnetic resonance imaging of metal loop intraocular lenses (letter), 427

Secondary intraocular lens implantation vs epikeratophakia for the treatment of aphakia (correspondence), 194

Intraocular pressure

Diffuse visual field loss in chronic open-angle and low-tension glaucoma, 577

A double-masked study of timolol and pilocarpine combined, 587

The effect of intracameral carbachol on intraocular pressure after cataract extraction, 225

The effect of twice daily nadolol on intraocular pressure, 343

Management of increased intraocular pressure after cataract extraction (correspondence), 195

Ocular palpation in pseudophakia (letter), 307

Positional changes in the vasculature of the optic disk in glaucoma, 457

Iris

Iris lymphocytic infiltration in patients with clinically quiescent uveitis, 508

Iris melanoma with extensive corneal invasion and metastases (letter), 543

Ischemia

Ischemic optic neuropathy after cardiac arrest (letter), 435

Posterior ischemic optic neuropathy during general surgery (correspondence), 555

Retinal detachment after choroidal ischemia, 364

K**Keratitis**

Acute and chronic keratitis with ulceration after corneal exposure to helium ion irradiation (letter), 189

Comparison of the prophylactic effects of 2-deoxycytidine and prednisolone for high-dose intravenous cytarabine-induced keratitis, 476

Hibiclens keratitis, 50

Hibiclens keratitis (correspondence), 670

Hibiclens keratitis (correspondence), 670

Medical and surgical treatment of *Acanthamoeba* keratitis (correspondence), 309

Medical and surgical treatment of *Acanthamoeba* keratitis (correspondence), 310

Rapid resolution of early *Acanthamoeba* keratitis after epithelial debridement (letter), 87

Keratomycosis

Direct examination vs culture of biopsy specimens for the diagnosis of keratomycosis (correspondence), 556

Keratopathy

Haemophilus aphrophilus as a cause of crystalline keratopathy (letter), 89

Keratoplasty

Recurrent crystal deposition after keratoplasty in nephropathic cystinosis (letter), 190

Keratouveitis

Hypopyon keratouveitis in acute angle-closure glaucoma (letter), 430

L**Lacrimal apparatus**

Lacrimal gland abscess (letter), 193

Lamina cribrosa

Extracellular matrix of the human lamina cribrosa, 567

Laser

A controlled five-year follow-up study of laser trabeculoplasty as primary therapy for open-angle glaucoma, 334

Fluorescein in laser sclerostomy (letter), 432

Long-term results of low power, long duration laser trabeculoplasty, 339

Nd:YAG laser photodisruption of the lens nucleus before phacoemulsification, 382

Neodymium-YAG laser posterior capsulotomy for the treatment of aphakic and pseudophakic pupillary block, 502

Noncontact trephination of the cornea using a pulsed hydrogen fluoride laser, 471

Photodisruption of intraocular gas bubbles, 145

Lattice corneal dystrophy

Clinical features of a newly recognized type of lattice corneal dystrophy, 241

Histopathologic and immunochemical features of lattice corneal dystrophy type III, 249

Lens

Nd:YAG laser photodisruption of the lens nucleus before phacoemulsification, 382

Levobunolol

Glaucoma treatment with once-daily levobunolol (correspondence), 443

Lymphocyte

Iris lymphocytic infiltration in patients with clinically quiescent uveitis, 508

M**Macula**

Detection of specific extracellular matrix molecules in drusen, Bruch's membrane, and ciliary body, 373

Grid photocoagulation for macular edema in patients with retinitis pigmentosa (correspondence), 94

Magnetic resonance imaging

Incidence of subcortical lesions not increased in nonarteritic ischemic optic neuropathy on magnetic resonance imaging, 398

Magnetic resonance imaging of metal loop intraocular lenses (letter), 127

Magnetic resonance imaging of optic tract involvement in multiple sclerosis, 74

Meibomian gland

Solitary tumors of meibomian gland origin and Torre's syndrome, 179

Melanoma

Iris melanoma with extensive corneal invasion and metastases (letter), 543

Malignant melanoma of the choroid associated with melanosis oculi in a child (letter), 662

The treatment of advanced choroidal melanoma with massive orbital extension, 634

Meningioma

Acute remitting visual loss after coronary artery bypass surgery caused by a suprasellar meningioma (letter), 434

Isolated trochlear nerve palsy secondary to cavernous sinus meningioma (letter), 433

Meningitis

Cryptococcal endophthalmitis and meningitis associated with acute psychosis and exudative retinal detachment (letter), 438

Microphthalmos

Corneal transplantation in microphthalmic eyes, 164

Migraine

Ophthalmoplegic migraine wrongly attributed to measles immunization (letter), 192

Unilateral internuclear ophthalmoplegia, migraine, and supratentorial arteriovenous malformation (letter), 191

Multiple evanescent white-dot syndrome

Increased serum IgM and IgG in the multiple evanescent white-dot syndrome (letter), 187

Multiple sclerosis

Magnetic resonance imaging of optic tract involvement in multiple sclerosis, 74

Myopia

The nationwide study of epikeratophakia for myopia (correspondence), 315

Myxoma

Ocular pigmented spots and eyelid myxomas, 533

N**Nadolol**

The effect of twice daily nadolol on intraocular pressure, 343

Near reflex

Spasm of the near reflex associated with organic disease (correspondence), 314

Neisseria sp.

Neisseria meningitidis conjunctivitis in children, 280

Neisseria mucosa endophthalmitis (letter), 663

Neovascularization

Retinal neovascularization after branch retinal arterial obstruction, 294

Nephropathy

Proteinuria and blood glucose levels in a population with diabetic retinopathy, 283

Neuropathy

Chiasmal neuropathy secondary to rheumatoid pachymeningitis (letter), 439

Nystagmus

Compensatory mechanisms in congenital nystagmus, 387

O**Obituaries**

Francis Heed Adler 1895-1987 (NEWELL, F. W.), 448

Ocular pigmentation

Ocular pigmented spots and eyelid myxomas, 533

Ocular toxicity

Hydroxychloroquine therapy in massive total doses without retinal toxicity, 139

Oculocardiac reflex

Oculocardiac reflex during manipulation of adjustable sutures after strabismus surgery, 61

Oculocardiac reflex during manipulation of adjustable sutures after strabismus surgery (correspondence), 551

Oculomotor nerve

Intracranial oculomotor nerve paresis with anisocoria and pupillary parasympathetic hypersensitivity, 401

Open-angle glaucoma

Bilateral effects of long-term monocular timolol therapy, 591

A controlled five-year follow-up study of laser trabeculoplasty as primary therapy for open-angle glaucoma, 334

Diffuse visual field loss in chronic open-angle and low-tension glaucoma, 577

Long-term results of low power, long duration laser trabeculoplasty, 339

Patterns of early visual field loss in open-angle glaucoma, 103:512; correction, 98

Ophthalmoplegia

Unilateral internuclear ophthalmoplegia, migraine, and supratentorial arteriovenous malformation (letter), 191

Optic disk

Acute posterior multifocal placoid pigment epitheliopathy with unilateral retinal lesions and bilateral disk edema (letter), 548

Positional changes in the vasculature of the optic disk in glaucoma, 457

Optic nerve

Eversion of the retina associated with optic nerve evulsion, 5; correction, 209

Optic nerve dysfunction in familial dysautonomia, 645

Reproducibility of topographic measurements with the optic nerve head analyzer, 581

Optic neuritis

Autoimmune retrobulbar optic neuritis (correspondence), 195

Optic neuropathy

Incidence of subcortical lesions not increased in nonarteritic ischemic optic neuropathy on magnetic resonance imaging, 398

Ischemic optic neuropathy after cardiac arrest (letter), 435

Posterior ischemic optic neuropathy during general surgery (correspondence), 555

Optic tract

Magnetic resonance imaging of optic tract involvement in multiple sclerosis, 74

Orbit

Evisceration with eversion of the scleral shell and muscle cone positioning of the implant, 265

Fluctuating visual loss secondary to orbital emphysema (letter), 664

Pyogenic granuloma on a dermis fat graft in acquired anophthalmic orbits, 641

The treatment of advanced choroidal melanoma with massive orbital extension, 634

P**Pars planitis**

Pars planitis and autoimmune endotheliopathy (correspondence), 311

Penetrating keratoplasty

Assessment of success and complications of triple procedure surgery, 233

Candida albicans endophthalmitis after penetrating keratoplasty, 57

Haemophilus aphrophilus as a cause of crystalline keratopathy (letter), 89

Traumatic wound dehiscence after penetrating keratoplasty, 44

Perimetry

Peters' anomaly

Corneal perforation at birth secondary to Peters' anomaly (letter), 303

Peters' anomaly in a father and son (letter), 545

Phacoemulsification

Nd:YAG laser photodisruption of the lens nucleus before phacoemulsification, 382

Philophthalmus sp.

Human conjunctivitis caused by the bird parasite *Philophthalmus*, 417

Photocoagulation

Avoiding gas-fluid exchange in postvitrectomy photocoagulation (letter), 86

Branch retinal artery occlusion after dye yellow photocoagulation of an arterial macroaneurysm (letter), 186

Grid photocoagulation for macular edema in patients with retinitis pigmentosa (correspondence), 94

Noncontact retinal photocoagulation at the slit-lamp biomicroscope, 290

Pigment epithelium

Acute posterior multifocal placoid pigment epitheliopathy with unilateral retinal lesions and bilateral disk edema (letter), 548

Pilocarpine

A double-masked study of timolol and pilocarpine combined, 587

Plasminogen

Treatment of experimental intravitreal fibrin with tissue plasminogen activator, 619

Prism

A simple device for holding ophthalmic prisms (letter), 548

Propionibacterium sp.

Endophthalmitis associated with sequestered intraocular *Propionibacterium acnes* (letter), 428

Prosthesis

Evisceration with eversion of the scleral shell and muscle cone positioning of the implant, 265

***Pseudomonas* sp.**

Microbial contamination of contact lens care systems, 325

Treatment of contact lens-associated corneal erosions (letter), 306

Pupil

Anterior capsulotomy associated with a small pupil (letter), 666

Intracranial oculomotor nerve paresis with anisocoria and pupillary parasympathetic hypersensitivity, 401

Pupillary-block glaucoma

Neodymium-YAG laser posterior capsulotomy for the treatment of aphakic and pseudophakic pupillary block, 502

R**Radiation therapy**

Acute and chronic keratitis with ulceration after corneal exposure to helium ion irradiation (letter), 189

Refraction

A simple device for holding ophthalmic prisms (letter), 548

Refractive surgery

The nationwide study of epikeratophakia for myopia (correspondence), 315

Secondary intraocular lens implantation vs epikeratophakia for the treatment of aphakia (correspondence), 194

Retina

Acute posterior multifocal placoid pigment epitheliopathy with unilateral retinal lesions and bilateral disk edema (letter), 548

Branch retinal artery occlusion after dye yellow photocoagulation of an arterial macroaneurysm (letter), 186

Effect of scleral buckling on vector forces caused by epiretinal membranes, 102: 449; correction, 667

Evulsion of the retina associated with optic nerve evulsion, 5; correction, 209

Histopathologic and immunohistopathologic features of subretinal fibrosis and uveitis syndrome, 15

Hydroxychloroquine therapy in massive total doses without retinal toxicity, 139

Increased serum IgM and IgG in the multiple evanescent white-dot syndrome (letter), 187

A model for predicting the site of paraxial retinal lesions secondary to "coaxial" operating microscope illumination systems, 516

Noncontact retinal photocoagulation at the slit-lamp biomicroscope, 290

The relation of rhodopsin and scotopic sensitivity in choroideremia, 524

Retinal neovascularization after branch retinal arterial obstruction, 294

Visual recovery in combined central retinal artery and central retinal vein occlusion, 358

Retinal detachment

Clinicopathologic findings in anterior hyaloidal fibrovascular proliferation after diabetic vitrectomy, 615

Cryptococcal endophthalmitis and meningitis associated with acute psychosis and exudative retinal detachment (letter), 438

Long-term results of vitrectomy and silicone oil in 500 cases of complicated retinal detachments, 624

Mountain travel and intraocular gas bubbles (letter), 546

Prevalence, pathophysiology, and treatment of rhegmatogenous retinal detachment in treated cytomegalovirus retinitis (correspondence), 312

Retinal detachment after choroidal ischemia, 364

Transvitreal cyanoacrylate retinopexy in the management of complicated retinal detachment, 127

Retinitis

Miliary retinitis in coccidioidomycosis, 24

Punctate outer retinitis in acute Epstein-Barr virus infection (letter), 424

Retinitis pigmentosa

Grid photocoagulation for macular edema in patients with retinitis pigmentosa (correspondence), 94

Retinopathy

Tamoxifen retinopathy at low dosage (letter), 185

Vitrectomy surgery in proliferative sickle retinopathy, 133

Vitrectomy surgery in proliferative sickle retinopathy (correspondence), 553

Retinopathy of prematurity

Ultrastructural characteristics of proliferative tissue in retinopathy of prematurity, 149

Retinopexy

Transvitreal cyanoacrylate retinopexy in the management of complicated retinal detachment, 127

Retrobulbar space

Autoimmune retrobulbar optic neuritis (correspondence), 195

S**Sarcoidosis**

Incidence of granulomatous lesions in postmortem conjunctival biopsy specimens, 605

ABSTRACT INDEX

A

Acanthamoeba sp.

Acanthamoeba keratitis in soft contact lens wearers, 453

Accommodation

On the hydraulic suspension theory of accommodation, 201

Acquired immune deficiency syndrome

Dihydroxypropoxymethyl guanine in the treatment of AIDS related retinitis due to cytomegalovirus, 320

Aging

Age-related changes in human vitreous structure, 451

Age-related depletion of the cell population in the human trabecular meshwork, 560

Effect of age on visual acuity after cataract extraction, 451

The light reflex in retinal vessels and its relation to age and systemic blood pressure, 450

Allergy

Systemic contact dermatitis medicamentosa induced by topical eye lotion (sisomicin) in a patient with corneal allograft, 318

Ametropia

Different visual deprivations produce different ametropias and different eye shapes, 678

Anterior segment

Thresholds for beneficial and harmful effects during use of high-power, pulsed lasers to treat problems of the anterior segment of the eye, 203

Aqueous humor

Effect of body position on intraocular pressure and aqueous flow, 678

B

Betaxolol

Betaxolol in chronic obstructive pulmonary disease, 453

Blepharoptosis

Ocular axial length in unilateral congenital cataracts and blepharoptosis, 452

Bradycardia

Severe bradycardia due to interaction of timolol eye drops and verapamil, 320

C

Campylobacter sp.

Anterior uveitis associated with *Campylobacter jejuni* infection, 561

Cataract

Cutaneous and ocular side-effects of oral photothermotherapy. Results of an 8-year follow-up study, 318

Effect of age on visual acuity after cataract extraction, 451

Essential fatty acids in the plasma phospholipids of patients with atopic cataracts, 318

Ocular axial length in unilateral congenital cataracts and blepharoptosis, 452

Central serous chorioretinopathy

Type A behavior and central serous chorioretinopathy, 201

Cerebral artery

Clinical features and mechanism of occipital infarction, 560

Children

Bone sarcomas linked to radiotherapy and chemotherapy in children, 679

Chlamydia sp.

Chlamydia trachomatis infections in the United States. What are they costing us?, 108

Occult chlamydial ophthalmia in men with non-gonococcal urethritis, 320

Chorioretinitis

Cryptococcal chorioretinitis and endophthalmitis, 563

Choroid

Is irradiation a justifiable treatment of choroidal melanoma? Analysis of published results, 676

Choroideremia

Choroideremia associated with a subretinal neovascular membrane, 563

Cicatricial pemphigoid

Cicatricial pemphigoid, 200

Computed tomography

Cortical blindness in toxemia of pregnancy. Findings on computed tomography, 319

Transection of orbital rectus muscle demonstrated by computed tomography, 321

Cone

Distribution of cones in human and monkey retina: individual variability and radial asymmetry, 453

Congenital disorders

Infantile herpes zoster ophthalmicus and acute hemiparesis following intrauterine chickenpox, 679

Ocular axial length in unilateral congenital cataracts and blepharoptosis, 452

Surgical management of congenital nystagmus, 107

Conjunctiva

Cicatricial pemphigoid, 200

The effect of diet on the ophthalmological, clinical and biochemical aspects of Richner-Hanhart syndrome: a morphological ultrastructural study of the cornea and the conjunctiva, 678

Low dose fluorescein angiography of the conjunctiva and episclera, 107

Contact lens

Acanthamoeba keratitis in soft contact lens wearers, 453

Use of soft contact lenses in an eye casualty department for the primary treatment of traumatic corneal abrasions, 451

Cornea

Corneal allograft rejection in bilateral penetrating keratoplasty. Clinical and laboratory studies, 200

Corneal perforation caused by dysgonic fermenter-2, 452

The effect of diet on the ophthalmological, clinical and biochemical aspects of Richner-Hanhart syndrome: a morphological ultrastructural study of the cornea and the conjunctiva, 678

Photographic calibration of the Hirschberg test, 452

Systemic contact dermatitis medicamentosa induced by topical eye lotion (sisomicin) in a patient with corneal allograft, 318

Use of soft contact lenses in an eye casualty department for the primary treatment of traumatic corneal abrasions, 451

Cortical blindness

Cortical blindness: etiology, diagnosis, and prognosis, 450

Cortical blindness in toxemia of pregnancy. Findings on computed tomography, 319

Cyclosporine

Treatment of Mooren's ulcer with cyclosporin A. Report of three cases, 107

Visual hallucinations and cyclosporine, 564

Cytomegalovirus

Dihydroxypropoxymethyl guanine in the treatment of AIDS related retinitis due to cytomegalovirus, 320

D**Diabetes**

Classification of proliferative diabetic retinopathy, 677

Fall in intraocular pressure during acute hypoglycaemia in patients with insulin dependent diabetes, 320

Diabetic retinopathy

Classification of proliferative diabetic retinopathy, 677

A controlled study of the influence of continuous subcutaneous insulin infusion treatment on diabetic retinopathy during pregnancy, 676

Phacoemulsification and implantation of posterior chamber intraocular lens in eyes with quiescent proliferative diabetic retinopathy, 677

Red krypton and blue-green argon panretinal laser photocoagulation for proliferative diabetic retinopathy. A laboratory and clinical comparison, 202

Dyslexia

Dyslexia, 110

Peripheral vision in persons with dyslexia, 322

E**Electroretinography**

Significance of abnormal pattern electroretinography in anterior visual pathway dysfunction, 319

Embolism

Clinical features and mechanism of occipital infarction, 560

Endophthalmitis

Cryptococcal chorioretinitis and endophthalmitis, 563

Endothelium

Endothelial viral inclusions in Fuchs' corneal dystrophy, 560

Enophthalmos

Correction of enophthalmos and superior sulcus depression in the anophthalmic orbit. A long-term follow-up, 322

No enophthalmos in Horner's syndrome, 561

Enzyme

The enzyme lactate dehydrogenase as a structural protein in avian and crocodilian lenses, 109

The visual cycle operates via an isomerase acting on all-trans retinol in the pigment epithelium, 454

Episclera

Low dose fluorescein angiography of the conjunctiva and episclera, 107

Extraocular muscle

The origins and insertions of the extraocular muscles. Development, histologic features and clinical significance, 200

Eyedrops

Pupillary dilation with tropicamide 1% for funduscopic screening, 676

Severe bradycardia due to interaction of timolol eye drops and verapamil, 320

Severe symptomatic atrioventricular block induced by pilocarpine eye drops, 318

Eyelid

Transconjunctival lateral canthopexy in Down's syndrome patients: a nonstigmatizing approach, 562

F**Fluorescein angiography**

Low dose fluorescein angiography of the conjunctiva and episclera, 107

Skin necrosis following fluorescein extravasation, 563

Fuchs' dystrophy

Endothelial viral inclusions in Fuchs' corneal dystrophy, 560

Fundus

Classification of proliferative diabetic retinopathy, 677

Pupillary dilation with tropicamide 1% for funduscopic screening, 676

Fundus flavimaculatus

Stargardt's disease and fundus flavimaculatus. Evaluation of morphologic progression and intrafamilial co-existence, 199

G**Ganciclovir**

Dihydroxypropoxymethyl guanine in the treatment of AIDS related retinitis due to cytomegalovirus, 320

Genetics

Familial recurrent Bell's palsy with ocular motor palsies, 562

Formation of retinal ganglion cell topography during prenatal development, 454

Stargardt's disease and fundus flavimaculatus. Evaluation of morphologic progression and intrafamilial co-existence, 199

Xeroderma pigmentosum, 106

Glaucoma

Chronic glaucoma selectively damages large optic nerve fibers, 320

Early diagnosis of glaucoma, 450

Examination of the retinal nerve fiber layer in the recognition of early glaucoma damage, 202

Investigations of the reasons for success and failure in the anterior shunt-to-the-encircling-band procedure in the treatment of refractory glaucoma, 201

Graves' disease

Long-term follow-up of ophthalmic Graves' disease, 108

H**Hallucination**

Visual hallucinations and cyclosporine, 564

Visual hallucinations associated with pituitary adenoma, 109

Herpes zoster ophthalmicus

Infantile herpes zoster ophthalmicus and acute hemiparesis following intrauterine chickenpox, 679

Natural history of herpes zoster ophthalmicus: predictors of postherpetic neuralgia and ocular involvement, 677

Horner's syndrome

No enophthalmos in Horner's syndrome, 561

I**Infants**

Infantile herpes zoster ophthalmicus and acute hemiparesis following intrauterine chickenpox, 679

Influence of transcutaneous oxygen monitoring on the incidence of retinopathy of prematurity, 562

Occurrence of strabismus in infants born to drug-dependent women, 106

Tocopherol efficacy and safety for preventing retinopathy of prematurity. A randomized controlled, double-masked trial, 322

Insulin

A controlled study of the influence of continuous subcutaneous insulin infusion treatment on diabetic retinopathy during pregnancy, 676

Fall in intraocular pressure during acute hypoglycaemia in patients with insulin dependent diabetes, 320

Intraocular lens

Phacoemulsification and implantation of posterior chamber intraocular lens in eyes with quiescent proliferative diabetic retinopathy, 677

Intraocular pressure

Effect of body position on intraocular pressure and aqueous flow, 678

Fall in intraocular pressure during acute hypoglycaemia in patients with insulin dependent diabetes, 320

Intraocular pressure during cardiopulmonary bypass, 319

Ischemia

Skin necrosis following fluorescein extravasation, 563

K**Keratitis**

Acanthamoeba keratitis in soft contact lens wearers, 453

L**Laser**

Red krypton and blue-green argon panretinal laser photocoagulation for proliferative diabetic retinopathy. A laboratory and clinical comparison, 202

Thresholds for beneficial and harmful effects during use of high-power, pulsed lasers to treat problems of the anterior segment of the eye, 203
